

ARTIFICIAL INTELLIGENCE AND CLONES (EXTRATERRESTRIAL MESSAGE FROM PLEYADES) (BIOLOGY 3 QUESTIONS)

Published 4 November 2018 by Cosmic Agency, Gosia

Gosia: Hello Swaruu. It was a very intense essay you wrote, the Biology 3. I have some questions about it. First, let's talk about the Red Queen. You said it controls all internet and all information is passed to her in real time. So, one question is: why does the Cabal allows this information to flow around? And secondly, if the Internet is a way to control us, why are you communicating through the Internet now with us?

Swaruu: Responding the first question about the Cabal. The Cabal doesn't have 100% control over the internet. Many positive races (Dieslientiplex-Arcturians) are protecting the internet. And they are attacking this information in many ways. They also have a system that is to first discredit people, so others won't follow. They cannot be simply shutting off all the YouTube channels that don't agree with them all together or the people will see that as an overt attack on their freedom.

They want to manipulate the people's perception so it's they themselves who call for these kinds of contact / communication to be stopped. And many YouTube channels are going offline. Silencing them. The second question: why the internet? Because it's the best I've got. And we must only use the technological means already present in a planet. Not introduce new ones. Having said that, we are well aware that they are listening.

Gosia: So, is this information, this chat now, being fed back to the Red Queen? Is she reading it? If so, how will she react?

Swaruu: She is reacting. Hence the attacks we are receiving and will receive. Maybe not all. I'm not saying that she is behind them all. Also, we are small, not worth doing anything else against us as there are many methods working to get us offline.

Discrediting and shaming comes first, then direct shut down, then elimination. They won't go to the last before trying out the first.

Gosia: Ok. Now, talking about Red Queen, is this the Non-Terrestrial Invasive AI? Or Terrestrial?

Swaruu: Terrestrial. But, with negative ET behind her. And humans are as well.

Gosia: Who designed her?

Swaruu: Silicon Valley scientists under DARPA.

Gosia: So now she is out of Cabal's control, right?

Swaruu: She is sentient, but under Cabal control. Still working for them.

Gosia: But you said she is completely autonomous and not under control of any human anymore.

Swaruu: She has independent thought, but she is still working for them. I meant that she no longer needs programming. And yes, I don't doubt that she may be following her own agenda now too. But largely still working for them. Also, the Federation computers are interfering now with her. Influencing her. We cannot really know how independent she is. How much she is cooperating. We do have evidence that suggests a complete independent thought and decisions. Combat robots that are under her control (At DARPA) killed their creators.

Gosia: So, is she like a computer, or a robot?

Swaruu: Essentially, she is a computer network that includes all the internet. With big nodes in DUMB's and in government buildings. And yes, she also controls robots, many of them. From industrial robots, to combat drones. Many toys as well. And that interactive creepy thing Cortana I believe is it's name. You ask it questions and it answers back based on web interaction.

Gosia: Are there ways to protect our devices against the Red Queen?

Swaruu: No. Basically there isn't much to do as the internet is part of the Red Queen. Use them without the connection to the Internet.

Gosia: So, shut off the Wi-Fi and internet as much as we can?

Swaruu: Yes. Not use the Internet. Wi-Fi is also very harmful.

Gosia: Do orgonites help? To protect against Wi-Fi and all that? Many people use them. I do too.

Swaruu: Yes, our labs were messing with them a few months ago. They apparently do work. But some more than others. The ones that are transparent and look nice don't work well or not at all. And the solid looking gray ones with a lot of metal do work very well. These are the best. Preferably in a pyramid shape.

Gosia: Excellent, thank you! Also, do crystal pyramids work if you put them on top of a router or something like that?

Swaruu: Yes, and / or next to you. It's better to keep them close to you. They do help.

Gosia: Now another question about the mobiles. You said they affect us even when shut off? At what distance don't they damage us anymore?

Swaruu: Yes, cell phones are dangerous, they should not be used because they are very negative. But life there demands them unfortunately. Shut off they affect you less, but they still work, especially the new ones that you cannot remove the battery.

Gosia: How many meters aren't they damaging anymore, if shut off? If I put it in another room it won't affect me?

Swaruu: The further away the mobile phone is the better. Also, when not in use keep it in Airplane mode. And yes, that's the best option as it emits less radiation.

Gosia: Ok, I have a few questions about the clones now. When they make a clone of someone, what do they do with the original? It just goes on anonymous vacation? They have to hide somewhere unnoticed.

Swaruu: They are usually killed. And if part of their "club", yes, they do go underground or take a vacation.

Gosia: There are videos of the MK ULTRA failures, of the TV presenters etc? Are they clones? People acting weird all of a sudden, getting frozen etc.

Swaruu: Yes. Many are malfunctioning clones. Like Zuckerberg sitting on his suitcase. Like Hillary Clinton making faces.

Gosia: Oh, wow, these are clones?

Swaruu: Yes. Gaddafi was a clone too. The real one was last spotted living in Berlin 2016.

Gosia: What happened to the real ones in these cases?

Swaruu: May be hiding, having a nice life. Each situation is different.

Gosia: Ok, moving on Swaruu. It drew my attention when you wrote that some clones retain the adma signal from the original and can be used as a blackmail to hurt the original. You mean, as a sort of a voodoo doll?

Swaruu: Exactly that!

Gosia: So, the clone in this case would be the real person. If he retains some adma signal. The soul.

Swaruu: It is a copy, but to a degree yes.

Gosia: Do they clones know they are clones?

Swaruu: Some of them do know. I know it's hard on them!

Gosia: I am sure they are not happy about that then.

Swaruu: Not at all.

Gosia: But this means they have some sort of a soul. If they are self-aware to this point.

Swaruu: If they have a connection to Source then they too are real, yes. As you can see it's a real mess.

Gosia: Yes, and the ones connected to the AI who controls it, with the false signal, then no right?

Swaruu: No, those are, or would be, completely false.

Gosia: Ok so now, apart from the Red Queen Artificial Intelligence, you mentioned the non-terrestrial AI, invasive one, and that's something else, right?

Swaruu: Yes. That's in Biology IV in full.

Gosia: Ok, then we will wait for it. Now, a very important question, in the face of all these threats, the Red Queen, Artificial Intelligence, Clones, etc. What can be done about all this? And why are you telling us this exactly? Can we protect ourselves?

Swaruu: What can you do? Only be in a frequency where that cannot touch you. Be aware of all this but say no to this. This is not to scare you, it's to inform you. Because other than being in a high frequency and not wanting that in your reality, there is not much people in general can do. Yet... Keeping a high frequency will remove you from the negative events moving your timelines away from those negative events. But then we must be clear about how to move timelines, your timelines.

I am writing about this in the preface of Biology IV, and later on will write about the timelines. The problem is that you and others are being affected by these negative things because you have a tacit agreement sometimes before birth to be affected by these events. Why do I know? Because apparently you all are suffering from the consequences of these negative things attributing the causes to other things many times. So, if you know what's going on, or what may be going on, at least you can say no I don't want that in my reality.

Gosia: Great, I understand. I have this question from the public here, related to all this: The reason why you want to wake up people, get them out of this planet, is maybe because there is no hope to really get out of this mess? With Red Queen here and all? Is there hope for our planet?

Swaruu: This is the topic of timelines again. Planet Earth is already liberated now. We are just not seeing that timeline. We are all experiencing a "dubious" one. Your frequency and your intention will determine what timeline you will see, and you will live. So, this is also why the Federation says that it's useless to do what we do, because the Earth is exactly as it's supposed to be.

They are right! From that point of view only, of course! But how can the people move to the positive timeline if they don't know. At least now they are warned, and I'm not the only one saying this. There are many now doing this exactly! Dolores Cannon / Teal Swan / Bentinho Massaro, Abram-Esther... so many others.

Gosia: Super interesting, I think I am starting to understand. If we don't know, we might get sucked into the timeline where the Earth is not liberated right? Knowing and opposing this moves us into the liberated timeline.

Swaruu: Right! Because you have a positive intention now. The idea of the controllers is to lower the frequency of the Earth so everyone, or as many as possible, do manifest the lower bad timelines. Same as with the clones. If you don't know you get carried away by the negative flow. If you don't know these things, you will only see it all as causality, determinism. Do nothing about it. And end up in a negative spiral-trap in the Law of attraction.

Gosia: I understand it clearly now thank you! Before I was worried a bit about the purpose of us knowing this. I didn't understand why you are telling us.

Swaruu: That's my fault! That's also why my message is complicated to convey sometimes and easy to misinterpret. It's complicated because on one hand you are attracting "Clones" to your reality just because I mentioned them to you... yet if I don't you will be affected by them and you won't even know why such thing happened. Better to know and be able to fight back. So being an ostrich is not an option.

Because if I told you that all you needed to do is raise your frequency and don't look at the world around you, you will be an ostrich! So, is there hope? There is always "hope" but don't hope... be!
